

MMA Crystal Springs Farm, Brunswick

July 13, 2025

with guest mycologist Larry Millman

Amanita brunnescens var. *pallida*

Amanita flavoconia

Amanita rhacopus

Caliciopsis pinea

Calocera cornea

Chlorencoelia torta

Chlorociboria sp.

Chromelosporiopsis coerulescens

Cordyceps tenuipes

Fomitopsis mounceae

Fuligo septica

Fuscoporia ferrea

Ganoderma tsugae

Gliophorus irrigatus

Gliophorus laetus

Gloeophyllum sepiarium

Graphostroma platystomum

Gymnopilus hybridus

Helicoglea compressa

Humidicutis marginata

Hydnoporia olivacea

Hypoxylon rubiginosum

Megacollybia rodmanii

Laetiporus sulphureus

Laccaria sp.

Lachnellula resinaria

Lachnum virgineum

Lophodermium pinastri

Mycena sp. (single, reddish, strong bleach odor)

Mycoacia fuscoatra

Mollisia cf. cinerea

Orbilia cf. xanthostigma

Phaeocalicium polyporaeum

Pluteus cervinus

Pseudomerulius curtisii

Resupinatus cf. striatulus

Russula dissimulans

Stemonitis sp.

Stereum complicatum

Suillus spraguei

Suillus weaverae

Tapinella atrotomentosa

Tulasnella aurantiaca

Trametes betulina

Trametes versicolor

Trichaptum biforme

Trichoglossum sp.

Tylopilus felleus

Tyromyces chioneus

Xanthoconium affine

Xenasmatella vaga

Zythia resinae
