

MMA Walk, Hidden Valley Nature Center, Jefferson, October 5, 2025

Apioperdon pyriforme
Bjerkandera adusta
Byssocorticium sp.
Calycina citrina
Cerrena unicolor
Chlorociboria aerueinascens
Coltricia dependens
Coniophora fusispora
Cortinarius sect. Dermocybe (close to C. croceus)
Craterellus tubaeformis
Crepidotus calolepis
Cyphelloid 1 (Henningsomyces-like)
Cyphelloid 2 (Merismodes-like)
Dacryobolus karstenii
Diatrype decorticata
Diatrype virescens
Entoloma cf. psammophilohebes
Entoloma subg. Claudopus
Fomes excavatus (F. fomentarius)
Fomitopsis betulina
Fomitopsis cajanderi
Fomitopsis mounceae
Galerina marginata
Gloeoporus dichrous
Graphostroma platystomum
Gymnopilus hybridus
Gymnopus dryophilus
Hydnomerulius pinastri
Hydnoporia olivacea
Hydnoporia tabacina
Hygrophorus flavodiscus
Hypholoma elongatum
Hypoxylon fuscum
Inosperma sp. (strong rotten fish odor)
Laccaria laccata
Laccaria sp. (big, in sphagnum)
Laccaria sp. (tiny, trooping)
Leucogyrophana mollusca
Marasmius rotula
Merulius tremellosus
Orbiliaceae
Peniophora cf. incarnata
Penttilamyces olivascens
Phaeocalicium polyporaenum
Phaeomarasmium proximans
Phaeonematoloma myosotis
Phaeolus hispidoides (P. schweinitzii)
Phallus ravenelii
Phyllotopsis nidulans
Piloderma bicolor
Pluteus atomarginatus

Rigidoporus populinus
Russula sp.
Sarcomyxa serotina
Steccherinum ochraceum
Stereum complicatum
Stereum lobatum
Stereum striatum
Taphrina robinsoniana
Trametes betulina
Trametes versicolor
Trichaptum biforme
Tricholoma fumosoluteum
Tricholomopsis sulfureoides
Tulasnella aurantiaca
Tulasnella violea
Tyromyces chioneus
Xenasmatella vaga
Zythia resinae
